Our expedition commences at **Książ Castle** that dominates the Silesian landscape with its majestic presence. As we approach, the castle's fairy-tale aura is unmistakable. We'll stroll through the castle's lavishly adorned rooms, each echoing tales of opulence and intrigue. The fusion of architectural styles, from Gothic to Baroque, mirrors the castle's turbulent history. I suggest we linger in the terraced gardens, a perfect spot to absorb the castle's storied past

and revel in panoramic views.

Next, we'll venture to **Bolkow Castle**. As we climb the hill upon which the castle proudly sits, even though now in ruins, its grandeur is palpable. This 14th-century Gothic fortress, a sentinel overlooking the valley, offers a romantic backdrop. Here's a tip: bring a camera. The interplay of the ruins with the natural landscape provides perfect photo opportunities, especially at sunset when the golden light bathes the stones.

Our final destination is **Walim, home to the enigmatic «Riese» project**. Initiated by Hitler during World War II, this subterranean labyrinth remains shrouded in mystery. As we embark on a guided tour of the underground museum, the eerie atmosphere is undeniable. The network of corridors and hidden rooms unveils a history both dark and fascinating. I recommend paying close attention to the guide's stories, which breathe life into this underground city's history.
